

JUST ANNOUNCED:
MSTI is now a **Polaris®** SDVOSB contract holder!

Mission-Focused Solutions

MSTI helps U.S. Government agencies fulfill their missions. We customize and scale our solutions to align with each customer's unique mission. Defense, Intelligence Community (IC), and civilian agencies contract with MSTI because our results are tangible, measurable, and impactful.

As a **Polaris®** SDVOSB contract holder, MSTI provides federal customers streamlined access to our cybersecurity, IT modernization, engineering, and mission support capabilities through one of GSA's premier governmentwide acquisition contracts.

MSTI offers expertise in such areas as **Enterprise IT Services, Cybersecurity Services, Business Intelligence, Data Governance, Program and Project Management, Records Management, and Logistics.** Our performance consistently exceeds service quality levels set by our customers and by MSTI leadership. These results reflect our rigorous quality control, effective risk management, and thorough understanding of customer needs and expectations.

With our **CMMC Level 2 Certification** and other prominent industry credentials, MSTI customers have confidence in how we handle classified and sensitive information and data. Our CMMC Level 2 Certification underscores MSTI's commitment to meeting the highest standards of cybersecurity maturity and safeguarding Controlled Unclassified Information (CUI) in accordance with Department of Defense requirements.
